MISLEADING FIGURES!

CHAIRMAN SAYERS DOES A LITTLE JUGGLING FOR DEMOCRACY.

Effort to Show that the Appropriations of the Fifty-Third Congress Were Below the Billion Mark.

REAL FACTS IN THE CASE

PENSIONERS ROBBED OF MILLIONS TO MAKE UP FOR DEFICIENCIES.

Gen. Henderson's Statement - Condition of the Treasury-Alleged Cause of Agricultural Depression.

Special to the Indianapolis Journal.

WASHINGTON, March 8,-Members of the appropriations committee are engaged in confusing the country as to whether the Fifty-third was a "billion-dollar" Congress. Mr. Cannor, who was the chairman of the committee in the Fifty-first Congress, has furnished his analysis. He has shown to his satisfaction that the Congress just adjourned spent more than the Fifty-first did. Mr. Sayers, the Democratic chairman of appropriations in the Fifty-third, has figured out an entirely different comparison and result. And now comes General Henderson, of Iowa, the ranking Republican on the committee, with a review which differs from both that have preceded his. Mr. Dockery, of Missouri, is at work on a fourth complex statement which will juggle the millions still further. The fact is that these are all "billion-dollar" Congresses. The differences between the grand totals of the past three Congresses are but a very few millions, no matter whether the figuring of the Democrats or the Republicans is taken. There is just one thing to be said, and it is so plain that everybody can understand it; moreover, there is no dispute among the members of the appropriations committee about it. All that the Democrats claim to have saved in comparing the money voted by the Fifty-first and the Fifty-third Congresses is not equal to one-half of the reduction in the pension appropriations. The Fifty-third Congress appropriated for the old soldiers of the country \$10,000,000 less than the Fifty-first did. The total appropriations of the Fifty-third, no matter who does the figuring, cannot be brought anywhere near that amount below the Fiftyfirst. The loudest claim the Democrats can possibly make to a reduction of expenses is not equal to the amount they have "saved" on pensions. That is all the coun-

Chairman Sayers's Figures. WASHINGTON, March 8 .- Representative Sayres, chairman of the House appropriations committee, has made a statement of the appropriations of the last Congress. He presented in the statement tables showing appropriations of the three Congresses, as follows: Fifty-first, \$1,035,680,109; Fifty-second \$1,027,104,527; Fifty-third, \$990,338,691. Mr. Sayres says: "The appropriations made by the Fifty-third Congress, including permanent appropriations, show a reduction of 36,765,856 under the appropriations made by the Fifty-second Congress and \$45,341,418 under those made by the Fifty-first Congress. The bills as they became laws appropriated \$16,434,480 less than the estimate, \$8,030,909 more than as they passed the House and \$6,121,955 less than the laws for the fiscal year ending June 30, 1895."

try wants to know. The rest of the figuring

Mr. Sayres, making a comparison with last year, shows that there is a net increase of \$5,877,320. The principal increases are: Navy, \$4,388,950; postoffice, \$2,309,398; sundry civil bills, \$12,884,584; on account of permanent appropriations, \$11,989,276. The principal decreases are: Indian bill, \$1,685,617; pensions, \$19,200,000; rivers and harbors (no bill having passed this session), \$11,643,180; deficiency, \$2,072,024.

Mr. Sayres, discussing the appropriations, says: "Notwithstanding the considerable reduction made in the total appropriations by the last session, under those of both the preceding Congresses, it will be noticed that the appropriations for the deficiency at this session are less than they were at the last session, and even less than the average for the two sessions of the Fifty-first Congress -a result which is to the credit of the economical administration of the

present economical administration of the government. Wasteful and extravagant methods in administration have heretafore made large deficiencies in annual appropriations to be supplied by Congress at each session. The sum charged under permanent appropriations, \$113,073,956, includes \$31,771,796 to pay interest on the public debt, including the Pacific railroad indebtedness, and \$49,250,000 to meet the requirements of the sinking fund. The present Congress has authorized no contracts for river and harbor works, though it has nad to provide nearly twenty million dollars to meet contracts authorized by the Fifty-first and Fifty-second Congresses.

tracts authorized by the Fifty-first and Fifty-second Congresses.

"Considering the growth of the country in millions of population since one close of the Fifty-first Congress, four years ago, and the enormous obligations entailed by the legislation of that body, I confidently assume that the reduction of expenditures amounting to more than \$45,60,000 made by this Congress under those authorized by the Fifty-first Congress will meet the expectations of the people and will elicit their cordial approval. To have checked the biennial billion-dollar pace of the Fifty-first Congress is an achievement in itself; to have done not only that, but to have reduced the appropriations of the Congress below the billion mark is a triumph vast in its proportions and significant of a return to economical and honest government."

General Henderson's Statement. WASHINGTON, March 8 .- Representative Henderson, of Iowa, the ranking Republican member of the House committee on appropriations, makes a critical statement of the appropriations of the last Congress from a somewhat different standpoint than that of his junior associate, Mr. Cannon. It summarizes the total of appropriations at \$909,338,691, but, with authorized contracts, increase of the interest charged by the sale of bonds and assured deficiencies, he brings the total up to \$1,019,ols,655, which, he says, was far in excess of the so-called "billion-dollar Congress." The statement proceeds: "In addition to all of this the Fifty-third Congress has increased the navy 1,000 collisted men and added 313 officers and employes to carry out the internal revenue provision of the Wil-As to the decrease of pension appropria-tions by \$20,305,560 the statement says: "Here is where the present administration

Awaroed Highest Honors-World's Fair. DR

MOST PERFECT MADE. A pure Grape Cream of Tartar Powder. Proc. 40 YEARS THE STANDARD.

and the Fifty-third Congress has been successful in paying some attention to the reduction of our revenues and the terrible strained condition of the federal treasury. strained condition of the federal treasury. Everything else has been generously provided for, swelling the appropriations, giving liberal contracts extending into the future, making appropriations immediately available, but when it comes to pensions a reduction is made of \$20,000,000, made possible by an oppressive system carried on by this administration which has brought a reign of terror into the ranks of the crippled soldiers of the Union, their widows and children."

Speaking of the Senate the statement says: "I cannot pass from the question of appropriations without a reference to the old song that was so constantly sung in the old song that was so constantly sung in the House about the increase made in appropriations 'by a Republican Senate.' The Senate is no longer Republican, but is absolutely in the hands of the Democracy, and that body at this session of this Congress increased the House bills \$19,170,136.04. I doubt if anything in the history of the government has equaled the increases made by the Senate at this session of Congress."

The statement as to foreign relations says: "In the midst of our distress, of the suspension of business, of the throwing of hundreds of thousands of laboring men out of employment, of increasing public debt, increasing appropriations, running expenditures far in excess of revenues, we have been mortified beyond words for description by a weak, cowardly and un-American foreign policy that has not failed to bring the blush of shame to the face of every true American citizen, whether Republican or Democrat." or Democrat. of the new tariff law the statement says:
"The Wilson tariff law has proved disastrous to every interest in this country. The history of that legislation is written on the tables of the poor and in all the homes of the people."

DUE TO CLASS LEGISLATION.

Democratic View of the Cause of

Agricultural Depression. WASHINGTON, March 8,-The majority of the committee of the House, appointed to inquire into the causes of the prevailing agricultural depression, has prepared a report in which it says: "It is necessary for the committee to enter into or dwell on the fact that agriculture is depressed in every branch of this most important industry; that the values of land and farm surroundings, unless under exceptionally rare conditions, have depreciated steadily as the puchasing power of the dollar has increased. But while the values of property owned by the American farmers have decreased in thirty years from nearly onehalf of the total wealth in 1860 to less than one-fourth in 1850, of which 30 per cent. is now under mortgage, taxes have steadily increased and debts now require four times the labor to be paid off than was then required. The purchasing capacity of the dollar to secure the farmer's land and his product has increased fourfold, while the power to pay his taxes and debts have remained at a standstill. In 1873 wheat sold from \$1.55 to \$2.25 a bushel, according to Spoffard's almanac. In New York, in 1894, it sold at 50 cents."

Discussing the cause of the depression the committee says: "Class legislation of the worst character encumbers the statute books and has been carried on to the detriment of agriculture and its dependent in-dustries for thirty years, culminating in the crime of the age, the demonetization of silver in 1873. The demonetization of silver was a bold stroke in the interests of capital that has reduced the value of every product in the world. This is conclusively product in the world. This is conclusively proven by the fact that just as silver has depreciated in like proportion have all of other values fallen in the scale. Silver bullion to-day has the capacity to purchase as much wheat, cotton, pork, corn and land and every other commodity that it ever had, therefore the depression of the white metal

and every other commodity that it ever had, therefore the depression of the white metal simply means the depreciation of every article under the sun, with one single exception—the gold of Shylock.

"The tariff system is not only unequal, but as for the past thirty years administered in this country is most unjust to the consumer and has built up trusts, combines and gigantic corporations, which have not only attained immense wealth at the expense of the people, but which have assumed to control and direct legislation so as to perpetuate their power and gratify their greed. The tariff bears with undue weight on the producer of agricultural staples, as it forces him not only to buy in this market but to sell in open competition with the world's lowest prices.

"Agricultural depression is still further augmented by the sale of futures on our stock exchanges where the grain gamblers grow rich by farming the telegraph wires and selling wind, while the honest and m-dustrious toilers on the prairies reap the whirlwind. Food adulterations add millions annually to the farmer's loss and compel him to meet in competition the realess but the saded other causes but

him to meet in competition the thief. To these might be added other causes, but these might be added other causes, but the principal ones to which agricultural depression, and stagnation in trade is due have been cited.

"The remedy lies in remedial legislation and until that is secured relief will not come permanently. To secure relief we suggest: First, that silver should be remonetized at the ratio of 16 to 1; second, that so long as the present unjust and unequal system of protection continues that agriculture should receive its just proportion, and as this cannot be secured by a protective tariff, that a bounty on exported agricultural staples should be allowed similar to that on fish in 1813 and for which John C. Calhoun voted; third, that gambling in futures should be prevented by law; fourth, that a national pure food law should be enacted. A minority report is being prepared."

A TREASURY STATEMENT.

Explanation by Mr. Curtis Regarding Deliveries of Gold. WASHINGTON, March 8.-Assistant Secretary Curtis to-day made the following statement: "In view of certain statements in the newspapers that treasury officials are embarrassed by an alleged failure in gold deliveries under the recent contract, and other assertions of a similar nature calculated to mislead and disturb the public mind, I wish to say that the actual withdrawals of gold from the treasury since the 1st of March, 1895, have been \$355,347, of which \$281,087 have been for the redemption of United States treasury notes and \$74,260 for the redemption of United States notes, divided among the cities of New York, Boston, Philadelphia, Baltimore, San Francisco, St. Louis and Chicago. These are no more than the ordinary withdrawals which in the past have usually taken place at this season of the year. Moreover, during the same period the treasury has received considerable gold coin in exchange

for various kinds of paper currency. "The apparent falling off in the gold reserve was caused by a misunderstanding in taking up, in the gold reserve statement of the Treasury Department from the daily reports of transactions sent from the subtreasury at New York, a large amount of gold which had been deposited for examination and count, and which should not have been included in the gold reserve until the final certificates of deposit on which bonds could be issued were delivered. The February figures quoted in some of the newspapers as withdrawn include the heavy withdrawals of the earlier part of that month before the gold-purchase contract was made, and one single large item not withdrawn for export, concerning which there has been considerable newspaper com-

"The treasury officials who are charged with the responsibility of these transactions have no anxiety whatever in regard to the method which is and has been pursued by the sellers of the gold coin under the recent contract. They are satisfied to contemplate the fact that for five weeks the withdrawals of gold coin have not exceeded the normal amount, with the exception of the instance quoted above, and that no exports of gold whatever have been made during that time. The fact is that fully \$3,000,000 in gold has already been deposited on the foreign account in excess of the conly of these transactions on the foreign account in excess of the con-"In regard to the excess of government

"In regard to the excess of government expenditures over receipts it is well known that the latter are rapidly increasing, and that up to this time nothing has been received from the income tax and very little from the sugar duty. Both will be important elements of receipts in the near fu ure, There is plenty of money in the treasury to pay the appropriations, and the statement in some articles that if the treasury had the money the passage of the enormous appropriation bills would lead to the immediate disbursement of immense sums of money is totally untrue. There is a question of law as to when the appropriation for the payment of the sugar bounty becomes available, and until that question is settled it will be impossible to make any payments thereunder. Moreover, the claims for bounty must be adjusted before payment, since payment must be made prorata if the appropriation is insufficient.

"The total available cash in the treasury te-day amounts to \$3,\$71,455 over and above the one hundred millions allowed to cover the gold reserve, which is \$9,745,594.11. The treasury officials have no anxiety as to their ability to meet all obligations in the

immediate future with ease and are confident that the expected revival of business will assure the future."

Special to the Indianapolis Journal.

MR. REINHART'S GRAD. One of Dockery's Experts Raids the Treasury for 39,500.

WASHINGTON, March 3 .- The Treasury Department is much incensed at a payment it was compelled to make to-day on acount of the late Dockery commission. which for two years has been examining the business methods of the department and in many cases instituting revolution, abolishing old bureaus, etc. A voucher was presented calling for the payment of \$9,550 to Mr. J. N. Reinhart, who is famous in railroad circles for his part in the late history of the Atchison road. Mr. Reinhistory of the Atchison road. Mr. Reinhart was a member of the commission for about a year and when the facts in connection with his presidency of the road became public he "resigned" by invitation of Mr. Dockery, the head of the commission. Nevertheless he put in a claim for nearly \$15,000 for services rendered the commission which sum the commission which sum the commission which sum the commission which nearly \$15,000 for services rendered the commission, which sum the commission scaled down to \$9,500. The treasury officials at first stronglyd emurred to paying the money, but there was no help for it. While Mr. Reinhart thus gets \$9,500 for one year's connection with the commission, the other two experts who worked on the commission over two years get about \$10,000 apiece for their entire work. It is explained that they were not as high "experts" as Mr. Reinhart, a judgment in which the stockholders of the hopelessly bankrupted Atchison railway may coincide.

THE SUGAR BOUNTY.

Congress Did Not Vote Enough Money by \$1,200,000 to Pay It. WASHINGTON, March 8.-The Secretary of the Treasury will, within the next few days, begin the preparation of the regulations under which the appropriation of \$5,000,000 made by the last Congress as a bounty for sugar producers in 1894 will be made. The act provides that there shall be paid on cane and beet sugar produced in 1894 a bounty at the rate of eight-tenths of 1 cent per pound, and appropriates \$5,000,000 for this purpose. The best data obtainable. however, indicates that the appropriation is however, indicates that the appropriation is entirely too small, and that something like \$6,120,000 would be necessary to liquidate all the claims upon the basis of eight-tenths of 1 cent a pound. Louisiana, it is said, produced about 700,000,000 pounds, Florida and Texas 20,000,000 pounds, and, estimating the beet sugar production at 45,000,000 pounds, the same as the yield of 1893, gives a total of 765,000,000 pounds. In view of the probable shortage Secretary Carlisle has decided to pro rate the payments among all of the producers according to their yield. This would warrant a payment of about sixty-five-one-hundredths of 1 cent per pound, instead of eight-tenths of 1 cent. Under this arrangement all claims will fare alike, and any scramble for precedence will be avoided.

Contracts for Carrying Mails. Special to the Indianapolis Journal. WASHINGTON, March 8.-The Postmaster-general has awarded contracts for carrying the United States mail in Indiana on the following named routes: From Elkinsville to Belmont, to J. A. Chandler, of Elkinsville; from Crozier to Moses Hill, to J. A. Fults; from Crozier to Moses Hill, to J.

A. Fults; from Woodland to South Whitley,
to F. E. Smith, of Washington, D. C.; from
Cross Plains to Dillsboro, to F. B. Riley, of
London, Ky.; from Nashville to Bloomington, to C. M. Randail, of London, Ky.; from
Tuckerton to Newport, to Samuel Gaines,
of London, Ky.; from Beetown to Glen
Haven, to F. B. Riley; from Bloomington
to Glen Haven, to Frank Taylor, of Bloomington.

General Notes. Special to the Indianapolis Journal. WASHINGTON, March &.-Eliza Northway has been commissioned as postmistress at Voorhees, Ind. To-day's statement of the condition of the

treasury shows: Available cash balance, \$183,371,495; gold reserve, \$89,745,594. MR. DANA ARRESTED

WARRANT ISSUED YESTERDAY FOR THE NEW YORK EDITOR.

Held on His Recognizance to Answer the Charge of Criminal Libel-Publisher Laffan in Cuba.

NEW YORK, March 8.-United States District Attorney McFarlane received from Washington, this morning, certified copies of the indictments found by the grand jury of the District of Columbia against Charles A. Dana, editor of the New York Sun, and William M. Laffan, the publisher of that paper, for criminal libel against Frank B. Noves, of the Washington Evening Star. Mr. McFarlane also received a bench warrant from Judge Cole, of the Supreme Court of the District of Columbia. The United States district attorney went before United States Commissioner Shields and requested that the latter issue warrants for the arrest of Mr. Dana and Mr. Leffan, the persons named in the indictment. This was accordingly done, and the warrants were turned over to United States Marshal John H. McCarthy, and United States Deputy Marshal Kennedy was sent over to the Sun office shortly after I o'clock with a summons for Mr. Dana to appear before Commissioner Shields. No attempt was made to serve a summons on William M. Laffan, as it was learned he was not in New York. Shortly after 3 o'clock Elihu Root and Frank Bartlett, counsel for Mr. Dana, the latter of whom is also Dana's son-in-law, had a brief consultation with Commissioner Shields. Mr. Bartlett, then telephoned Mr. Shields. Mr. Bartlett then telephoned Mr. Dana to come to Commissioner Shields's office as soon as possible. At 4 o'clock Mr. office as soon as possible. At a clock Dana appeared, and, after being introduced to Commissioner Shields by Mr. Bartlett, Mr. Dana sat down, and there was a brief Mr. Dana sat down was a brief Mr. Assistant United States District Attorney
Mott and the counsel for the accused as to
the date when the hearing should take place. After a few moments a request was sent to United States District Attorney Mcsent to United States District Attorney Mc-Farlane, asking if Saturday, March 16, would suit him as a convenient date to have the hearing take place, and on his reply in the affirmative Commissioner Shields set down the case for that day, at 11 o'clock. He then added, turning to Mr. Dana, and addressing him: "I hold you on your own recognizance on request of Mr. Bartlett." Mr. Dana then left the office with his son-in-law. It was explained to Commissioner Shields that William M. Laffan was in Cuba, and that he would be immediately notified of the indictment pending against him. Counsel for

Mr. Dana, on being asked if it had been decided just what action would be taken in the matter, replied that as yet no course had been decided on.

A COUNT'S MARRIAGE.

Jean Edward D'Hulby and Francesca Menti Wedded in Old Trinity.

NEW YORK, March 8 .- Count Jean Edward d'Hulby and Francesca Menti were married in Old Trinity Church yesterday. ore ancient family than the Castellanes, and his mother, from whom he gets his title, was a Borgetto, and this means much in Italy. His own personal possessions are of great value, and he has an unriviled collection of paintings. Canon Knowles performed the ceremony. Miss Menti has been noted for her beauty in Boston. The bridegroom, who was born in London, resides in Rome. He was arrayed in full uniform, with sword. The breast of his jacket was covered with orders, and he waited for the bride at the chancel railing of old Trinity with his best mar, William Loftin Vanrutan.

National Sculpture Society. NEW YORK, March 8.-The National Sculpture Society will hold its second an-Sculpture Society will hold its second annual exhibition in the galieries of the American Fine Arts Society building from Tuesday, May 7, to May 23 next. Combined with it will be a retrospective exhibition of sculpture. In connection with the display of sculpture there will be an exhibition of landscape gardening. During the exhibition two prizes, one of \$500 and one for \$200, will be given by the society for the best two designs for a new United States silver dollar.

Sibley and the New Party. PITTSBURG, March 8.—Ex-Congressman Joseph C. Sibley, of Franklin, Pa., the head of the new silver party, was in the city to-day. Concerning the new party, he said: "It is more of a principle than anything else, but it is a principle that is bound to force recognition from the people and one that is growing in power dall." There is but ONE and only One

BOTTOM OF THE PACIFIC RENT.

Geyser-Like Columns of Water Thrown Up by an Earthquake.

SAN FRANCISCO, March 8 .- An earthquake at sea is reported by incoming vessels, and hydrographic officers believe it was gigantic oceanic eruption. The earthquake, which occurred early in the morning of March 2, was preceded by a calm sea. The first warning of the earthquake came in the form of a deafening roar, which seemed to rise out of the sea. In an instant the ocean was lashed into a mass of foam, rising in places in great geyser-like columns. Vessels stopped with a crash, as if they had struck on a rock. News of the advent of a new island in midocean, or of the disappearance of one, is expected at the hydrographic

Western Insurance Union. ST. LOUIS, March 8 .- At to-day's session of the Western Insurance Union the entire time was taken up considering the report ing insurance business in the cities under its jurisdiction. The same subject was un-der discussion at to-night's session, but as the deliberations are carried on with the utmost secrecy it could not be learned what, if any, action was taken in the matter, which is the most important before the convention. The rules governing the conduct of business are not interpreted alike by all the members, clashes resulting, and it is the purpose of the convention to recon-cile these differences. It was rumored that there had been serious disagreements among the members, but this is denied by President Harding, who says the deliberations are being carried on harmoniously.

Fatal Explosion of Gas. PROVIDENCE, R. I., March 8 .- A terrific explosion of illuminating gas occurred on College street, just below Brown University, this afternoon, resulting in the fatal injury of Thomas Nelson, an employe of the street railway, and seriously crippling the counterweight system used in connection with the electric cars, which run over the hill. The explosion occurred in the tunnel under the hill.
